Articles

Risk factors for early hospital readmission in geriatric patients: a systematic review

Cilla F et al

Int. J. Environ. Res. Public Health 2023, 20, 1674

Foot problems in older adults

Research on foot problems and frailty is sparse and could advance using wearable sensor-based measures of gait, balance, and physical activity (PA). This study examined the effect of foot problems on the likelihood of falls, frailty syndrome, motor performance, and PA in community-dwelling older adults.

Muchna A et al

Journal of the American Podiatric Medical Association 108 (2) 126-139

Associations between osteosarcopenia and falls, fractures and frailty in older adults: results from the Canadian Longitudinal Study on Aging (CLSA)

Lee S et al

JAMDA 25 (1) 167-176

Association between frailty and head impact location after ground-level fall in older adults

KnowledgeShare

Sign up to KnowledgeShare and we will send out regular emails alerting you to the latest evidence on a particular topic. To sign up, please click on the following link: <https://www.nhslincslibrary.uk/knowledgeshare-request/>

Evidence Searching Training

If you need evidence, we can provide training on how to search the healthcare databases and resources. We can also show you how to appraise the information that you find. To book a training session please contact clinical.libarian@ulh.nhs.uk. More information can be found at: <https://www.nhslincslibrary.uk/training/>

Online Resources

BMJ Best Practice is available to all NHS staff. This clinical decision support tool provides step-by-step guidance on diagnosis, prognosis, treatment and prevention of a wide variety of conditions.

Available from: <https://bestpractice.bmj.com/oafed>

ClinicalKey is a database which supports healthcare professionals by providing access to the latest evidence across specialties.
