<p>Dissecting the association between gut microbiota, body mass index and specific depressive symptoms: a mediation Mendelian randomisation study Yu T et al General Psychiatry 37 (4) dissecting the association</p>

Rumination in patients with major depressive disorder before and after antidepressant treatment

Seegerberg T et al

Journal of Affective Disorders 360 (Sep) 322-325

Experience sampling of suicidality, religiosity and spirituality in depression: network analyses using dynamic time warping

Van den Brink B et al

Journal of Affective Disorders 360 (Sep) 354-363

Disorders

Structured clinical interview for diagnosing obsessive-compulsive spectrum disorders

Lochner C et al

Comprehensive Psychiatry 133 (Aug) 15249

Heatwaves and mental disorders: a study on national emergency and weather services data

Christodoulou N et al

European Journal of Psychiatry 38 (3) 100249

The genetics of trichotillomania and excoriation disorder: a systematic review

Reid M et al

Comprehensive Psychiatry 133 (Aug) 152506

Fear of negative and positive evaluation as mediators and moderators of treatment outcome in social anxiety disorder

Morrison A et al

Journal of Anxiety Disorders 104 (June) 102874

Eating Disorders

Clinical experiences using cognitive-behavioral therapy for eating disorders

Gioia A et al

Behavior Therapy 55 (4) 872-884

Gender stereotypes in eating disorder recognition

Sala M et al

Eating & Weight Disorders 29 (2024) 45

Who gets treated for an eating disorder? Implications for inference based on clinical populations

Field A et al

BMC Public Health 24 (2024) 1758

Attitudes and gaps in knowledge of the diagnosis, treatment and psychopathology of eating disorders among different health professionals

Monteleone A et al
Journal of Eating Disorders 12 (1) 89

Forensic Psychiatry/Psychology

Evidence-based policy in a new era of crime and violence prevention and social justice

Welsh B et al
Aggression and Violent Behavior 77 (July) 101940

Preventing suicide in people who experience incarceration

Kinner S et al
Lancet Psychiatry 11 (7) 486-488

World-wide incidence of suicides in prison: a systematic review with meta-regression analyses

Mundt A et al
Lancet Psychiatry 11 (7) 536-544

Intellectual/Learning Disabilities

How do people with intellectual disabilities understand friendship? A systematic meta-synthesis

Jackie I et al
JARID 37 (2024) e13244

The use of proxy measurement of internal states in people with intellectual disability: a scoping review

Webb K et al
JARID 37 (2024) e13241

Developing the self-determination of children and young people with intellectual disabilities in schools: a systematic review of the literature

Willow S et al
JARID 37 (2024) e13247

LGBTQ+

Global prevalence of major depressive disorder in LGBTQ+ samples: a systematic review and meta-analysis of epidemiological studies

Hong C et al
Journal of Affective Disorders 360 (Sep) 249-258

Stigma and lesbian, gay, bisexual, transgender, and queer (and additional identities) (LGBTQ+) parent socialization self-efficacy: mediating roles of identity and community
Kay A et al
Journal of Family Psychology 38 (4) 643-653

Examining differences in mental health and mental health service use among lesbian, gay, bisexual and heterosexual veterans
Harper K et al
Psychology of Sexual Orientation and Gender Diversity online first examining differneces

Mental Health and Physical Activity

Association between physical activity and depression in adult prescription opioid users: a cross-sectional analysis based on NHANES 2007-2018
Li Gang et al
General Hospital Psychiatry 89 (July) 1-7

Work Engagement and Well-being Study (SWELL): a randomised controlled feasibility trial evaluating the effects of mindfulness versus light physical exercise at work
Vainre M et al
BMJ Mental Health 28 (1) work engagement

Framework for understanding movement and physical activity in patients diagnosed with psychosis
Diamond R et al
BMJ Mental Health 28 (1) framework

Miscellaneous

Enhancing comprehensive understanding: advocating for grey literature searches in scoping reviews
Pedersen M
General Hospital Psychiatry 89 (July) 93-94

Unitary psychosis (Einheitspsychose): a conceptual history
The objective of this paper is to explore the evolution of the forms of madness and the model that accounts for it over time. The classical distinction between several categories of mental disorders is contrasted with the idea of unitary psychosis.
Agarona M
Journal of Affective Disorders 359 (Aug) 86-91

Making the most of libraries, part 5: evaluating information using the CRAAP Test (If you would like to see parts 1-4 of this interesting series email us)
Chalkley A
BJHCA 18 (7) 284-286

Mindfulness and Wellbeing

<p>Can mindfulness-based interventions reduce PTSD symptoms? An umbrella review Jovanovic B et al Journal of Anxiety Disorders 104 (June) 102859</p>
<p>Is a brief mindfulness ecological momentary intervention more efficacious than a self-monitoring app for social anxiety disorder? A randomised controlled trial Zanal N et al Journal of Anxiety Disorders 104 (June)102858</p>
<p>Neurodivergence</p>
<p>Overlap of eating disorders and neurodivergence: the rose of inhibitory Norton et al BMC Psychiatry 24 (224) 454</p>
<p>Why critical psychology and the neurodiversity movement need each other Thomas E Frontiers in Psychology 2024 critical psychology</p>
<p>Neurodiversity and cognitive load in online learning: a focus group study Le Cunff S et al PLoS One 19 (4) e0301932</p>
<p>Quality education for all: a case study of success for a neurodivergent learning Ker G et al Frontiers in Sustainability 5 (2024) 1399361</p>
<p>Professional</p>
<p>Understanding effect size: an international online survey among psychiatrists, psychologists, physicians from other specialities, dentists and other health professionals Heimke F et al BMJ Mental Health 28 (1) understanding effect size</p>
<p>Schizophrenia</p>
<p>Impact of psychopathology on day-to-day living in patients with schizophrenia: a network analysis Redlich B et al Comprehensive Psychiatry 133 (Aug) 152501</p>
<p>Statins as an adjuvant therapy for patients with schizophrenia: an up-to-date systematic review and meta-analysis Peng T et al General Hospital Psychiatry 89 (July) 75-83</p>

<p>The new long-acting injectable for maintenance treatment of schizophrenia: What is the clinical value of aripiprazole 2-month ready-to-use 960mg Alamo C et al European Journal of Psychiatry 38 (3) 100260</p>
<p>Biomarkers of neurodegeneration in schizophrenia: systematic review and meta-analysis Wilson J et al BMJ Mental Health 28 (1) biomarkers</p>
<p>Recent social stress and severity of auditory hallucinations Farina E et al Schizophrenia Research 269 (July) 64-70</p>
<p>Self-harm and Suicide</p>
<p>Acceptability, use and safety of the Bluece self-harm prevention app: qualitative findings from the Beating Adolescent Self-Harm (BASH): randomised controlled trial Stallard P et al BMJ Mental Health 28 (1) acceptability</p>
<p>Suicide risk assessment tools and prediction models: new evidence, methodological innovations, outdated criticisms Seyedsalehi A, Fazel S BMJ Mental Health 28 (1) suicide risk</p>
<p>Collaboration matters: a randomized controlled trial of patient-clinician collaboration in suicide risk assessment and intervention Lohani M et al Journal of Affective Disorders 360 (Sep) 387-393</p>
<p>Effectiveness of early and intensive intervention on suicide prevention: CARS programme <i>The aim of this study was to evaluate the outcomes of the Programme for Management of Suicidal Behaviour and Suicide Prevention (CARS)</i> De Santiago-Diaz A et al Psychiatry Research 338 (Aug) 115964</p>
<p>Therapies/OT in mental health</p>
<p>Single session of interpretation bias modification helped to improve fear of Covid-19 related post-traumatic stress symptoms Zhang F et al BMJ Mental Health 28 (1) single session</p>

Green recovery: using nature to help people with mental health problems

Page M

Nursing Times 120 (8) 18-21

Veterans and Mental Health

Gender differences in risk and resilience for suicidal thoughts and behaviors: a national longitudinal survey study of United States veterans with a recent suicide attempt

Denneson L et al

Journal of Affective Disorders 360 (Sep) 412-420

Longitudinal changes in the PTSD symptom network following trauma-focused treatment in military populations: identifying central symptoms and the role of military sexual trauma

Xu B et al

Journal of Anxiety Disorders 104 (June) 102872
