Articles

How to facilitate NHS professionals to recognise and use skills gained from global health engagement when back in the UK workforce? A participatory action research project to design, pilot and evaluate a series of online leadership workshops

BMJ Open 2024;14:e079160

A series of bespoke leadership workshops were designed, delivered and evaluated by leadership experts to help enhance the transferability of leadership skills back to the UK National Health Service

Delivering medical leadership training through the Healthcare Leadership Academy: a four year analysis

BMC Medical Education (2024) 24:194

This study analyses the effectiveness of the HLA scholarship programme as an intervention for improving interest in and preparing scholars for future leadership roles.

Investigating the retention and attrition of emergency care advanced clinical practitioners in the UK
International Journal for Advancing Practice Vol. 2, No. 2 pp. 90-96

The aim of this scoping review is to investigate what is already known about retention of ACPs in EC and examine why ACPs leave EC for other areas of practice.

Effect of interventions to improve safety culture on healthcare workers in hospital settings: a systematic review of the international literature

BMJ Open Quality 2024;13:e002506.

This review contributes to international evidence on how interventions to improve safety culture may benefit hospital staff and how they can be designed and implemented.

Priorities for the NHS in the year ahead

[2024/25 priorities and operational planning guidance \(england.nhs.uk\)](https://www.england.nhs.uk/2024/25-priorities-and-operational-planning-guidance/)

Clinical Services Journal May 2024

NHS England has published the key priorities for the NHS, during the year ahead, as part of new planning guidance.

[Summary of existing guidance on the deployment of medical associate professions in NHS healthcare settings](#)

NHS England, Published: 31st May 2024 Updated: 3rd June 2024

Policy: [Supporting International Recruitment – Principles & Standards](#)

These standards are intended to inform and guide employers, managers and professional members. These are the principles and standards expected when international recruitment into the UK's health and social care sector is being undertaken, including the NHS and Independent Sector.

SoR; RCM; & CSP April 2024, First Edition

[Which technologies offer the biggest opportunities to save time in the NHS?](#)

The Health Foundation, 29th April 2024

In this new analysis, we look at clinician views on which technologies offer the biggest opportunities to support staff capacity and release time.

[New guidance: Assessing the well-led key question for NHS trusts](#)

Care Quality Commission, 8th April 2024

Good leadership has a significant impact on staff morale and patient experiences of care. Our guidance on how we will assess the well-led key question aims to support NHS trusts to understand what good leadership looks like. Good leadership enables better care for patients, and a more sustainable health and care service.

[Excellence through equality: Anti-racism as a quality improvement tool](#)

BME Leadership Network, NHS Confederation April 2024

This report highlights the efforts undertaken by members of the NHS Confederation's BME Leadership Network to enhance services for healthcare workers and patients, recognising anti-racist work as an integral service improvement tool aimed at reducing racial inequalities.
